Acknowledgement

Receipt is acknowledged of the Preliminary Amendment filed April 12, 2004.

Reasons for Allowance

Claims 1-21 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Duncan et al., taken alone or in combination of other references, does not teach or fairly suggest a method or an information handling system comprising, among other things, a first connector exhibiting a connector impedance greater than the bus impedance and a riser card situated in the first connector, the riser card including a second connector and an interconnect between the second connector and the first connector, the second connector exhibiting a connector impedance approximately equal to the connector impedance of the first connector, the impedance of the interconnect being sufficiently low to compensate the amount by which the connector impedance exceeds the bus impedance, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
